Inspiring People & Communities

Meet the Fitzgerald Family

Fitzgerald's Woodlands House Hotel & Spa is the region's premier business destination. With over 40 years' experience, we offer a wide range of accommodation, meeting and conference suites, corporate dining, event venues, leisure club, spa and Organic gardens all of which can be tailored to your own requirements.

We are located just 15 minutes from Limerick City Centre and 10 minutes from Raheen Industrial Estate which means you can enjoy the best of both worlds – the tranquillity of a hotel located on the edge of Adare, Ireland's prettiest village, with easy access to the city centre and its surrounds.

Our location, close to Limerick City, Shannon Airport and motorway links to Dublin, Cork and Galway allows for easy access to a host of locations and air, rail and coach links.

Our commitment to local ingredients as well as using ingredients from Mary's Organic Garden has earned our popular Timmy Macs Bistro Guaranteed Irish status, while our outdoor dining area, The Treehouse has been voted Irelands Best Outdoor Venue. The resort is accredited by Good Food Ireland and is included in the Best Places to Stay and Best Places to Eat sections of Ireland's leading independent food and hospitality guide, Georgina Campbell's Ireland.

Sustainability

Fitzgerald's Woodlands House Hotel & Spa is a family run 4 star hotel on 40 acres of private organic grounds. We are dedicated to becoming a global leader in sustainable tourism with our most recent award being "Best Sustainable Practices" in both Limerick and Munster awarded by the Restaurant Association of Ireland

Our vision is to become a carbon-neutral resort, and ultimately reach carbon negativity, by implementing sustainable practices across all areas of our operations We've already taken significant steps to integrate sustainable practices into our daily operations, and we're constantly exploring new ways to innovate and lead the way towards a more sustainable future.

By installing a state-of-the-art combined heat and power system, the hotel decreased its electricity usage by 46% and gas usage by 14% over the course of five years, creating a more stable ambient temperature throughout the resort, Health & Leisure Club and Revas Spa. More recently, we have added a solar farm.

The resort has its own well and waste-water treatment plant on-site, which means it is entirely self-sufficient. All food-waste is composted and used for Mary's Organic Garden and our organic farm, both of which are home to trees planted as part of the resort's carbor offset programme. As part of our bio diversity programme, we are proud to have our own bees producing honey for our menus.

Microbeads are banned from the hotel's in-room toiletries and Revas Spa and our team right across the resort are working towards eliminating single use plastics.

Our state of the art EV Chargers cater for up to 6 vehicles for electric car charging.

we are leaders in sustainable tourism and our journey continues every day.
